

LEED for Operations and Maintenance

Technical Review

Date: Monday, May 18, 2009

Time: 8a.m. - 4:30p.m.

Location: Hilton Scottsdale

6333 North Scottsdale Road • Scottsdale, AZ • 480-948-7750

Seminar Overview:

This seminar provides an overview of green building, sustainable design and LEED for Existing Buildings: Operations and Maintenance (O&M) green building rating system. The instructor will show the value added for each stakeholder on the project team and take you on an informative journey through the structure and elements of the LEED-EB: O&M framework, the business case for pursuing LEED, an overview of the process through certification and then conclude with project examples and a panel discussion with those who've had success with the process. Don't miss this opportunity to get an in-depth look at LEED from experts in the industry!

Module 1 • Introduction to green building, sustainable design & LEED

Module 2 • Project site factors under the new rating system

Module 3 • Water management, project systems & energy impacts

Module 4 • Acquisition, installation and management of project materials

Module 5 • Improvements to the indoor environment

Module 6 • Project surroundings and public outreach

Module 7 • Case studies and panel discussion

Cost: \$275 for SESHAs Members

\$375 for Non-members
